To Whom It May Concern:

I am a avid listener of XM Satellite Radio. You get a range of variety of what you can listen to. I can listen to country, check out the 70's, listen to Gospel, and get the weather. Why is it when something actually comes along that really appeals to people someone wants to get rid of it. I am asking you to please reject NAB petition 04-160. We have the freedom of speech, let us also have the freedom to listen to XM Satellite Radio.

Sincerely,

Kate Ellis
